

LINKEDIN PROFILE AUDIT

Your profile, roasted and rebuilt.

A full breakdown of what's holding your LinkedIn profile back,
the rewrite, and a 7-day plan to make it work for you.

Profile report card

HEADLINE

2/10

No headline written — invisible in recruiter search

ABOUT — FIRST 2 LINES

3/10

Generic "passionate student" opener, skipped before "see more"

ABOUT — FULL SECTION

5/10

Real substance buried under buzzwords

EXPERIENCE

0/10

No entry on profile — the single biggest gap

SKILLS AND KEYWORDS

4/10

C/C++ at the top dilutes a frontend/full-stack target

Before vs after — content

Headline

BEFORE

Pre final year Computer Science student

AFTER

Frontend Developer | React & JavaScript | Building AI-powered web apps | Final-Year CSE

About — opening hook

BEFORE

"Final-year B.Tech Computer Science and Engineering student with a strong passion for software development, AI-powered applications, and problem-solving."

AFTER

"I spent 60 days shipping one AI-powered app a day, across productivity, finance, and education. Here's what that taught me about building fast."

Skills — order and focus

BEFORE

+34 points

7-day activation plan

Day 1	Update headline, about, and skills on your profile. Pin your top 3 skills.
Day 2	Publish an "I rebuilt my LinkedIn" post to your network.
Day 3	Send 10 strategic connection requests to recruiters and engineers in your target space.
Day 4	Leave value comments on 5 posts from people in your target space (agree, add insight, ask a question).
Day 5	Publish a lessons-learned post from your 60-day AI building challenge.
Day 6	Reply to every comment on your posts, and send 5 more connection requests.
Day 7	Review profile views and connection acceptance rate, and adjust your approach.

Biggest open gap: your Experience section is empty. Adding one real entry — even a personal project from the 60-day challenge, written with action verbs and numbers — will move your score further than any other single change.
